Three Jaw Parallel Gripper

- Jaws are T-Slot bearing supported to prevent jaw breakage and offer superior load bearing performance.
- High gripping force to weight ratio.
- True Parallel jaw motion for easy tooling.
- Units are permanently lubricated for non-lube air operation, allowing for OSHA compliance.
- Piston seals are quad-ring type for long service life.
- Hall effect sensors are available to monitor open and closed position of the jaws.
- AGP is fully field repairable for cost savings and minimum down time.
- Optional Stripper plate ensures part preload in location upon release.
