Built-In Air Cylinder

FEATURES AND BENEFITS

- Compact lightweight unit with built-in air cylinder.
- Linear ball bearings ride on precision hardened ground steel shafts.
- Units are permanently lubricated.
- Pistons seals are U-Cup type for long service life.
- Aluminum body and end blocks contain tapped holes and dowel pin holes for precision mounting or fixturing.
- Custom mounting holes and air ports can be added. Please consult factory.
- Main body or end blocks can be anchored due to the 1/16" height clearance.
- Standard built-in stroke adjustment for precise repetitive operation.
- Proximity switches are available to monitor end of stroke position of the body.
- Optional shock absorbers can be ordered for smooth operation.
- Series AGS is fully field repairable for cost savings and minimum down time. Repair kits are available for repairs or maintenance.
